

CARE INSTRUCTIONS FOR MELAWOOD SUPATEXTURE

Daily Cleaning

- Use a damp, soft, lint-free cloth.
- To remove grime, use a mild soap and water solution. Cloth must be well rung out not to overly wet the surface.
- Always prevent any moisture from penetrating any unprotected or exposed edges.
- Diluted window cleaning products are great for removing drying marks and smears on surfaces. (1 part window cleaner to 2 parts of water)

Do not use...

- Acetone
- Methyl Alcohol/MEK
